-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The disclosure is objected to because of the following informalities: "48" (page 4, line 12) is incorrect.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Policicchio et al (US PUB 2003/0074756). '756 discloses a mop assembly comprising a member (30) with an upper side for coupling to a handle/shaft and wherein the assembly includes means (114) for retaining a cleaning sheet/cloth as well as scrubbing member (40) and a squeegee (50) (see figs 23-27).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3723

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-7 and 9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Policicchio et al (US PUB 2003/0074756) in view of Saltzstein (USP 3,737,938). '756 discloses the invention substantially as claimed with the exception of the cloth fastener being on the under side. The patent to Saltzstein discloses a mop (50) with a head (60) the underside of which includes a fastener (95) for a cleaning sheet. It would have been obvious to one of ordinary skill to have modified the device of '756 as such as it is an art-recognized equivalent means for retaining a mopping sheet. Minor changes in the orientation of the "scrapers" (eg, claim 6) would be obvious to one of ordinary skill. Element (40) is described as a "brush or scrubby" (paragraph 0066, line 12). One of ordinary skill would recognize that well-known non-woven scrubbers would be obvious variants of the member taught by '756 (eg, scotchbrite pads). Microfiber cloths are also well known in the art and would be obvious for much the same reason.

Allowable Subject Matter

7. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Spisich whose telephone number is (571) 272-1278. The examiner can normally be reached on M-Th (5:30-3:00), Alternate Fri off.
